

APPELLOAPP

Full Description

The AppelloApp, is part of our digital suite, Smart Living Solutions and adds mobility to the services we offer.

The app works in conjunction with the wall mounted, LivingHub, to provide a mobile personal alarm, door entry, video communications, and medication reminder hub for residents, wherever they are in their home. It also provides a mobile speech unit within the home, with two-way speech enabled through the speaker on the device, to our monitoring centre.

From the comfort of the armchair, residents can see who is at the front door, call friends, and even raise an emergency alarm.

Features

- 📍 Emergency alarm connection through tablet device
- 📍 See who requesting access to the property from your tablet and grant/deny access
- 📍 Free apartment to apartment calling through tablet device
- 📍 Medication reminders
