

# SMARTALERT FREEDOM

## Full Description

SmartAlert Freedom is unique wireless, smart emergency response device with Intelligent Voice Activation™ technology.

The portable SmartAlert Freedom can be taken anywhere in the home, creating extended communication. The Freedom allows two-way communication in areas of the home that were previously difficult to reach. Multiple Freedom devices can be used within one property to provide even greater coverage and resilience.

For care providers this significantly reduces no-response calls where the customer could not communicate with the equipment located centrally in the home.

## Features

- ☺ Intelligent Voice Activation™ (IVA): an always-active technology that recognizes preset vocal commands which trigger specified actions
- ☺ 2-way voice communication capabilities. Built in speaker and mic to support conversation
- ☺ Voice extender extends total coverage to the entire home
- ☺ Water resistant for use in shower or bathing areas
